GLASS OF SALT IF YOUR KIDNEYS HURT
Eat Less Meat If You Feel Backache Or Have Bladder Trouble.
Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poisons, else you feel a dull misery in the kidney region, sharp pains in the back, or sick headache, dizziness, your stomach sour, tongue is coated with mucus, the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.
To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of J.W. Hull's glass of salt. Take a tablespoonful in any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. J.W. Hull's salt is inexpensive, harmless, and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

BODY OF GIRL SUICIDE IS HELD AT MERIDIAN
MERIDIAN, Miss., March 31. (Sp.)—The remains of Mrs. Stella or Jennie McKelvey, who committed suicide by shooting herself through the head Friday, are being held at the undertaking parlor of James P. Webb, pending telegraphic communication with her husband, J. H. McKelvey, Miami, Fla., her father, I. R. Jennings, Magnolia, Miss., and Mrs. T. N. Smith, Tyler, Miss., to all of whom she wrote letters before taking her life. Friday night a number of people visited the undertaking establishment and viewed the remains.
In an open letter, left with other writings, Mrs. McKelvey asked that the above named parties be notified in the death, and in addition directed the disposition of her effects.
It has developed that Mrs. McKelvey had only recently fled out for divorce through a local attorney. The papers were filed in Florida.
Little is known of the suicide here. At one time she is said to have worked at Kroger and at other places in the city. She had only been here about four months, it is understood.

YAZOO COUNTY AGREES ON REDUCTION PLAN
YAZOO CITY, Miss., March 31. (Sp.)—Ninety per cent of the arable land of Yazoo county will be pledged to a cotton reduction program of 40 acres of food and feedstuffs to 60 acres of cotton, says L. G. Montgomery, county chairman of the cotton reduction committee.
Mr. Montgomery is pointing out the agitation in the North created by the cotton reduction movement. In the South as the best sign of the coming success of the movement. He also lists the increase of 30 points on October cotton following the report of the Watkins bureau, largest and best recognized of the commercial houses dealing with cotton, saying that there would be a decrease of 15 per cent in the South's acreage, that 20 per cent less fertilizer would be used this year, and that the South's crop was 30 days late now. All these things, says Mr. Montgomery, are giving the farmers an idea of what can be accomplished by producing less cotton.

CHICAGO MAYOR'S RACE ENDS
Spectacular Campaign Wages for Weeks Round Figure
Mayor Thompson.

CHICAGO, March 31.—One of the most spectacular political campaigns in Chicago's history will come to a close tonight. Because of the somewhat tangled situation, political observers and party leaders were hazy as to the outcome of the election of tomorrow.
Mayor William H. Thompson, Republican, who opposed each other four years ago, were won by a plurality of 145,000, have been fighting the battle over again.
This year, however, the campaign has been even more interesting by the entrance of Marjory Hoeyne, Democratic state's attorney, as an independent candidate by petition.
The situation is further complicated by John Fitzpatrick, president of the Chicago federation of labor, who is entered as the candidate of the recently organized Chicago labor party. The other candidates are John M. Collins, socialist, and Adolph S. Carr, socialist labor.
With a total registration of near 700,000 men and women, it is certain that the vote will be the largest ever cast at a mayoral election. For several weeks the "loop" has been a bedlam of political noise. Every vote-getting device known to modern political campaign has been used. The candidates have held daily meetings at noon in downtown theaters, and meetings at industrial plants during the morning and afternoon. At night scores of meetings have been held in all parts of the city. A striking feature has been the large number of women present at these meetings. Virtually every inch of billboard space has been decorated with pictures and pledges of candidates. The postoffice has handled nearly 4,000,000 pieces of campaign literature. Party lines have been largely ignored in the roundup of voters. National issues, the war, local issues and even the religious question have been injected into the campaign.
Chicago for the first time in its history will vote on the liquor question because of a belated decision of the state supreme court. The court ordered that the question "shall the city become an anti-liquor territory?" be printed on the ballot. The "drys" decided not to contest the question, but the "wets" have made a vigorous fight in the hope of rolling up a big majority. The "wets" slogan is: "Let your protest be heard by congress. Search and seize follows prohibition!"
Mayor Thompson was favorite in the betting until recently when Sweetser became the even money choice of those who wager on election results. Mayor Thompson has made his campaign largely on Republican national issues combined with attacks on newspapers and the public service corporations. The mayor's war record and his administration of the city's affairs have been vigorously attacked. Mrs. Sweetser, the regular Republican organization have openly opposed the mayor. Sweetser is accused of being an opponent of being friendly to the public service corporations. They charge that if elected he will take his orders from Roger C. Sullivan, wealthy Democratic leader of Chicago.
Hoeyne, independent, is backed by the friends of former Mayor Carter H. Harrison, and has made a whirlwind campaign. He is expected to receive as many Republican votes as Democratic and may prove a dangerous contender.
Fitzpatrick, it is believed, will receive a large vote, drawing his strength principally from the Democrats.

HUSBAND SLAYER SAYS ACT WAS SELF-DEFENSE

TUSCUMBIA, Ala., March 31.—Admitting that she shot her husband in self-defense, Mrs. W. J. Milligan is in custody of the Colbert county sheriff, following the tragedy, which occurred Sunday morning at the Milligan home.
Mrs. Milligan declared that her husband, to whom she had been married 20 years, had been cruel and that this treatment culminated in a demand Saturday night that she agree to a divorce in order that he might marry another woman. This demand was renewed Sunday morning and "my continued refusal to meet his desire so infuriated him that he attacked me," said Mrs. Milligan. "Throwing me against a stove and me and then drew a pistol. I myself was armed, fearing trouble, and fired first."
The bullet struck Milligan under the left eye and penetrated the brain.

American Princess, Italy's Red Cross Head, Flu Victim

NEW YORK, March 31.—Princess Ighia Colonna, leader of the Italian Red Cross, died Friday at her home in Santa Margherita, Italy, of influenza, according to word received by Clarence H. Mackay, her half-brother.
The princess, the daughter of Mrs. John W. Mackay by her first husband, a cousin of William Cullen Bryant, was born in the "gold fields" of Nevada.
Her early life was the story of the great West. Left destitute by the death of her father, she and her mother were supported by funds raised by the big-hearted miners. Later, when her mother married John W. Mackay, founder of the Postal Telegraph, to thank him for the share he had in the subscriptions which had rescued her from abject poverty, a romance developed which culminated in her marriage to him.
The princess subsequently married to the Colonna family, one of the oldest in Rome and won the popular title in Rome of the "American Princess Colonna," which she bore for a quarter of a century.

RAILROAD WAGES ARE NOT LIABLE TO GARNISHMENT

NASHVILLE, Tenn., March 31.—The supreme court of Tennessee has decided the case of Dikens vs. Bradford Realty company, involving the right of a creditor to garnish wages of an employee of the United States railroad administration. It was contended by the defendants that such an employee was an agent of the government, and that the disposition of the railroad administration could not in any way be interfered with by a creditor of the employee. The court of civil appeals held that the wages could be garnished, but that no execution could issue to enforce the garnishment until the private owners of the railroad were returned to the court of civil appeals and held that the funds of the railroad administration were not in any way subject to attachment or garnishment proceedings by creditors or employees. The court held that such a policy required the extension of the same to the railroad administration as an agency of the federal government. The opinion in this case was filed for official publication by Justice Groom.

CHAMBERLAIN SPEAKS TUESDAY AT NATCHEZ

NATCHEZ, Miss., March 31. (Sp.)—At the probability the address of Senator George E. Chamberlain, of Oregon, to be delivered here on Tuesday evening, will be the only one to be given before his return to Washington. Senator Chamberlain is visiting his old home here and because he wished to rest, declined numerous invitations from Oregon and other states to speak.
Following Senator Chamberlain's address a reception in his honor will be given. At the request of Mayor W. G. Benbrook, Senator Chamberlain has accepted a reception in his honor and war and postwar questions and it is expected that he will have something to say regarding the league of nations and the present military courtmartial system.

BARGE LINES ARE TO BE PERMANENT IS OPINION

NATCHEZ, Miss., March 31. (Sp.)—M. J. Sanders, federal director of inland waterways for the Mississippi and Warrior rivers, in an address here before business men of Natchez, declared there was no reason to doubt the permanency of the federal barge lines established by the government, nor the economy and efficiency of operation when proper equipment and facilities are provided. He stated that the cost to the government is expending \$4,500,000 for a new fleet of barges and tow boats of improved type and that some of the boats will be in commission by June. He added that the steps taken to co-ordinate river and rail rates were a guarantee against any future destructive competition by railroads.

Asphalt Slate SHINGLES
for
beauty, safety and economy on all kinds of steep roof buildings

There is a good reason why these Shingles are extremely popular all over the United States, as well as in our own community, and why they are found on churches, schoolhouses, residences, clubs, apartments and all sorts of less expensive buildings.

It is because they are not merely beautiful, not merely fire-resisting, not merely enduring—but all of these things put together.

They require no painting. They do not rot. They do not dry out and split or curl. Wind cannot loosen them, heat and cold does not affect them, rust cannot reach the nail heads and, finally, they are spark-proof.

The base is a special wool felt thoroughly saturated and waterproofed with asphalt and coated with tempered asphalt compound. This surface is finished with crushed slate in the natural colors, red or green.

Asphalt Slate Shingles save painting, repairs and replacements, and reduce insurance premiums. Consult us about your roofing requirements, get an artistic roof, and save money.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied to her scalp with effect. But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.
